Activity	Description	Year	Learning Outcomes	Schools	Dates
<b>Dive into History 360</b>	This project is aimed at creating immersive experiences that allow the public to discover Malta's unique underwater cultural heritage. Combining underwater 360 footage and virtual reality headsets, students will be able to explore Heritage Malta's underwater sites, discovering unique wrecks and marine life. The 360 session is designed for up to 24 students at a time and will be combined with a short informative talk and Questions and Answers session. The session lasts approximately 45 minutes.	Year 7 - Year 8	History: Learning Outcome C: Working with historical sources  Use of Archaeological Evidence	Middle and Secondary Schools	To be set upon booking
